DETAILED ACTION

Receipt is acknowledged of the amendments and remarks filed on 01/10/05.

Accordingly claims 1-18 remain pending.

Double Patenting

A rejection based on double patenting of the "same invention" type finds its support in the language of 35 U.S.C. 101 which states that "whoever invents or discovers any new and useful process ... may obtain a patent therefor .." (Emphasis added). Thus, the term "same invention," in this context, means an invention drawn to identical subject matter. See *Miller v. Eagle Mfg. Co.*, 151 U.S. 186 (1894); *In re Ockert*, 245 F.2d 467, 114 USPQ 330 (CCPA 1957); and *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970).

A statutory type (35 U.S.C. 101) double patenting rejection can be overcome by canceling or amending the conflicting claims so they are no longer coextensive in scope. The filing of a terminal disclaimer cannot overcome a double patenting rejection based upon 35 U.S.C. 101.

The rejection of claims 1-18 under 35 U.S.C. 101 as claiming the same invention as that of claims of prior U.S. Patent No. 6,645,469 is maintained.

Response to Arguments

Applicant's arguments filed on 01/10/05 have been fully considered but they are not persuasive.

Applicant believes that the amendments made to the claims overcomes the statutory double patenting rejection. Applicant states that by removing the inhalation limitation from the instant claims, the claims are not to the same invention. This is not found persuasive. The instant claims require direct administration of the dry micro fine powders to the subject, and that method of administration encompasses inhalation. By

simply removing the term "inhalation" from the claim the scope has not been altered. As can be seen from claim 2, where the composition is administered to the subject's respiratory tract upon breath activation by the human subject. Thus the examined claims are considered to be drawn to the same invention as are the reference claims.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
